

IMPROVISED MUSIC

JIN SANGTAE

(ELECTRONICS)

“His speciality is extracting harsh noise and glitches from exposed computer hard drives. These circuit-bending investigations run the gamut from carefully mediated feedback blasts to jerky mechanical clatter to sparse buzzes and hisses. Hovering intently over his electronics, he probes and dissects the chaotic din with scientific precision.” (The Wire)

HAN-EARL PARK

(GUITAR)

JEFFREY WEETER

(DRUMS/ELECTRONICS)

MONDAY, **24 JANUARY** 2011
